In the AGORA of Montpellier we will see how the CD has quite a big transformation, as many members that have been working really hard in it for the last period of time are leaving. This is something that we are quite used to, as we are used to the fact that right before each AGORA a «witches hunt» takes place inside the network. It was shocking to see some of the messages that were put in the listserver in the last couple of months, some of them appearing in this number of the NB.

The CD is the executive branch of our association, possibly the one with the biggest part of the power in it. The members of the CD are with no discussion the most observed and analysed members of the whole network of 15,000 members. This is logical, and this is the way it should be. But what it

is not logical is the fact that for being part of that body they should be put in the «firing place» whenever an AGORA arrives.

It is true that we have to be critical with the work done by this very important part of our network. It is true that they have to explain how and why some things work, and why they take some decision instead of the others. If we want our association to improve and to get bigger and better, we have to be hard and critical with those that have the responsibility to take the most important decisions according to the future of AEGEE. We have to ask them to be as professional as they can, to be able to compare and compete with other associations that are around us. We can't just forget about this side as we are not members of the CD, because it is also our responsibility to

look at their acts and say what we think is wrong, or what it could be improved. But always from a constructive approach.

This is the key difference between a nonsense criticism and a constructive one: the constructive one, at the same time he criticises, he will try to think a better way of solving that question and will always be thinking how to improve instead of only destroy. The destructive one will only attack; and he may be right, but the fact that he is only worried in attacking, with no solutions or initiatives in his side takes out all the legitimacy that he may have to make those attacks. If you have been in a couple of AGORAS you have been able to presence at least a couple of situations where the CD member or the candidate was completely torn out by criticisms. And, for the member of AEGEE that goes for the first time to an AGORA, this is not the

best of the examples of the spirit of the association. On the contrary, it may happen lately, that people feel intimidated to work in the CD and some places may even stay free. In my opinion this is a direct result of that atmosphere of destructive criticism that may be put into action by some members whenever an AGORA arrives.

Let's hope that in the AGORA in Montpellier the «weather» is calm, and let analyse carefully every fact the CD presents to us, to see how with the effort of all of us we can improve AEGEE. I also would like to congratulate the candidates to the CD, Quim, Paw, Egens, Csilla, Alessandra, Eva and Andrea and wish them luck in this period in the CD, and also say bye and thanks to those who are leaving it after having been working in it first of all for the good of the association.

TEMPUS NEWSLETTER

About the TEMPUS Working Group In order to restart the TEMPUS WG I sent an information letter and a questionnaire to all Eastern locals to be found in the Address Book at the end of June. I was just hoping that not everybody was already on holidays. I sent it altogether to 31 antennae and contact antennae in the Eastern part of Europe. Two letters came back as the address was 'inconou', from Sofia and Skopje. In the end only 5 locals responded. 'The award goes to' AEGEE-Baja - theirs was the only response that I received before the suggested deadline. (It was 20th July, which I needed in order to be able to inform the Erasmus WG about the expected TEMPUS WG

activities at the Erasmus WG meeting on 22-23 July.) Another award goes to AEGEE-Timisoara where as many as 3 («+ others») members are interested in the field of education and TEMPUS. I also got a nice reaction from the new TEMPUS responsible of AEGEE-Budapest, a fax from AEGEE-Brasov saying that they are sending an answer soon and later a completed form from AEGEE-Ljubljana. Thank you very much for all the reactions

The conclusions:

There are AEGEE members who are interested in TEMPUS and education in the Eastern part of Europe, and there is demand for various information about the

TEMPUS Scheme in the AEGEE locals. In the meantime the Education Working Group has been established and now those who are concerned about TEMPUS will be able to work in the TEMPUS unit of the Education WG. After this change if you are interested in education in general or in mentor programs, you do not have to choose between the Erasmus and the TEMPUS working groups. And, hopefully, you will always find your field of interest in one of the units of the Education WG. If by any chance your local did not receive / lost / forgot / never heard about the above mentioned information letter and questionnaire, still please write to me your answers.

The questionnaire :

1. Do you have a TEMPUS, student mobility or education responsible in your local? (Please, give name, address, telephone/fax/e-mail)

2. Do you help the visiting foreign students somehow at your university? Do you have a mentor program for them? (Types of activities,

coordinators)

3. Do you have some contacts to the TEMPUS coordinator(s) of your university?

4. Members who are interested in TEMPUS in general, in mentor programmes, applications, student mobility, education (possible Education WG and TEMPUS unit

5. Subjects, problems you would like to hear more about, anything concerning the above mentioned fields. Please, discuss with several members. Thank you for your contribution. Please

send your questions and the answers to my address or e-mail account that you can find in the Address Book as soon as you can.* Financial support from TEMPUS There is an unfortunate change in the TEMPUS application possibilities from next year on concerning our association. The conditions of Complementary Measures applications, the category which AEGEE could be fit in when applying for financial support for conferences, has been largely changed. There will be no more possibilities for us to apply for support for our conferences from 1995. What we can still get from the TEMPUS Office is information for the AEGEE locals concerning eg. Mobility Projects (Joint European Projects). If you need some information you can contact the TEMPUS responsible(s) at your university or me.

HUMAN RIGHTS WG

Beating Intolerance; Europe goes into Action!

Dear readers:

At the successful ex-Yugoslavia, causes and consequences conference in Tilburg we discussed the possibilities for AEGEE to help students in this area. It turned out that students in the besieged areas are not only short of materials; something else they really need is MORAL SUPPORT. How to give this: we are trying to gather addresses and e-mail accounts which can be given to AEGEE members who are seriously interested in setting up a correspondence. You understand we cannot send all this stuff around the listserver so if you are interested contact John Stienen! Furthermore, we are working for the practical support. You will get more info about this in a couple of days.

Yours,

Pleun Rijkers
Speaker HRWG

Dear EWWG-ers:

I'm happy to send you again such mailing (I'm sure you are happy too, aren't you?). Unfortunately I'm still very busy with arranging my studies, therefore this mail is going to be the short one. First of all I'd like to thank to Sjoerd and Denise for their help to run EWWG while I wasn't here. They did a really good work, because:

1. The visa brochure is ready and will be presented at the Agora in Montpellier. It will contain important information concerning visa problems and procedures. It will serve like an internal guide for AEGEE locals.

2. During the summer I have received the exhaustive materials and explanations from Aziz (Juridical Commission) regarding the registration of our WG. So right now we are ready to follow his guidelines. Some details: the registration is being advised to be done in France, there is a small notary fee (we may pay it with money coming as the subvention from the CD), the statutes have to be translated into French (Aziz will help with this). If you want to know more, just drop me a line. By the way I heard yesterday that Erasmus (now Educational) WG had registered itself some days ago. Why not to use their experience?

3. Today I found from the server that our Case Study

Trip (CST) project was submitted to the Council of Europe to be considered for subvention. I was supposed to meet with Dmytro (AEGEE contact in Kyiv) during the conference here in Warszawa. Unfortunately, their bus couldn't come here, so I hope to continue working on it using e-mail and discuss it in Montpellier.

4. Regarding the EWWG meeting during the Agora I hope that this will be held as usually on Friday afternoon (17.00 ?). I couldn't send this information to the publishers of Agora booklet, so this may not be included in it.

5. The most important item on that meeting will be the elections of a new Board. The present situation is as follows: some Board members didn't show any signs of life since they had been elected. The rest was in permanent touch, but we have been representing EWWG since the Agora in Praha (spring 1993). For example, I don't find it possible to be longer the speaker. Therefore we are looking for EWWG members, who are wishing to continue our job. If you are interested (or you know someone from your antenna), please let me know. WE need 5 people to be elected. I have already «approached» several people, but consider it again, maybe you are the right person. Don't let to waste our 1,5 years' efforts to get EWWG back on the track! I hope to find some free time to follow up to this letter with more information (specially about the forthcoming EWWG meeting in Montpellier). I'm looking forward to your reactions.

PRESIDENTS' MEETING HELSINKI SEPTEMBER 1994

BY
CHRISTINA
THORSSON

During some nice days of autumn in Helsinki, with the trees glowing in red and yellow and the clear air letting the last warming sunbeams reach our pale faces, some 200 active AEGEE members gathered for a very nice PM.

We were first invited to a seminar «Democracy in Russia - Economy Guiding Ideology» in the beautiful auditorium of the Helsinki University building. Being physically close to the subject matter it was extra interesting to hear also speaker from Russia talking on the subject. In the afternoon, as always on the Fri day before the PM, all the Working Groups met and finally we saw the birth of the Human Rights Working Group! Saturday and Sunday were of course filled with important(?) issues such as «establishment of the quorum», «ratification of the agenda», «moral report of the association» and

the» proposal of a new working format of the PM». Ask someone who was there what was the most interesting... Anyhow, we also came to the conclusion, during the presentation of «AEGEE and European Institutions», that the Working Groups are the most important bodies of AEGEE.

Maybe something to start thinking about? Further on, the Long Term Programme was explained, with baskets moving around until everybody's head was turning. We are turning into a quite scientific association? Still, Long term planning would probably be pretty

good for a voluntary association like ours. Of course, the 10th anniversary was one of the main topics and we got to see the organizing team from Aalborg. The yearly programme is falling piece after piece to its place and I suppose most of us are looking forward to the great AEGEE-year! As usual it was sometimes a bit hard to keep all delegates in good order. One could even see some of them falling in a kind of presidential sleep and although the chairman sometimes vanished under the table, when he came back up, no one dared to utter a word. The youth hostel where we were all lodged was very nice. One night when we came back late,

We also came to the conclusion, that the Working Groups are the most important bodies of AEGEE.

someone started to play the guitar and the rest of us started singing. What did exactly happen later that evening? In the end, we all left with a very nice feeling that I am sure will continue also in Ljubljana. See you around,

Once again an AEGEE-MEETING concerning the Balkan Region took place this October in Thessaloniki. According to the decisions of the PM in Helsinki, AEGEE-MEETINGS will now be called AEGEE-FORUMS. Same old stuff with a new name! But as this one was still referred in the Calendar of Events as an AEGEE-MEETING, I will allow myself to call it as such. By the way, in a funny coincidence the Regional Meeting which took place in Thessaloniki in December 1992 was again the last one to hold the name REGIONAL MEETING after the establishment of the term AEGEE-MEETING. This was the result of the abolishment of the regional divisions in AEGEE-Europe decided at that time by the CD, something which at second thought at least for me should be reconsidered. Being the 5th AEGEE-meeting to take place in the Balkans, since the very first mini-meeting held in winter 1991 in Athina which was followed by the before-mentioned meeting in Thessaloniki in December 1992 and two meetings in Sofia in February 1993 and 1994, its quite interesting to briefly remember how AEGEE has developed through the years in this region (oops forbidden term, but what can I do!). AEGEE in the Balkans. In the first years, the years of EGEE, our association's presence in the Balkans was limited only to Athina which had joined the network already since 1986, followed by Thessaloniki a couple of years later. Things started to change, when AEGEE took the step eastwards and then from 1990 onwards Ljubljana (still at that time in a Balkan country) joined as a Contact, followed (if I remember well) by Sofia in 1991, Cluj following next in the line and so on... Today AEGEE is present in most of the countries in

the Balkans with a quite large number of Contacts however without Contact Antennae and Antennae. This, one could say coincides with the motto quantity does not always mean quality. With the exception of a few large, already established antennae, the rest forms a so called Aegee-periphery which in a way stays isolated from what is happening in the rest of the network. Regional MEETINGS in the Balkans are an effort to create a bridge between the AEGEE-Kernel and its periphery. This is helped by the fact that luckily some Antennae geographically belong to the Balkan Peninsula but due to objective geopolitical facts are not able to participate in the so-called AEGEE-Kernel. This in a regional MEETING where at least a temporary WE-feeling in an AEGEE-Sublevel is created, helps enormously for the spreading of information and gives to objectively hindered AEGEE-units the opportunity for participation on an equal basis in a round table where all are neighbours, there is time and understanding for each other's problems, and where the few of the AEGEE-brothers who have made it to the AEGEE-Kernel can show the others a few things more. The conditions under which some AEGEE-locals have to function in some areas of the Balkans are really beyond any of a West-European's imaginations. Technical, structural, social, economical and also difficulties in matters of tradition and the influence by society individual attitude make things very difficult. The main problem seems always to be the lack of information, or in a lot of cases the insufficient function of the existing channels of information flow. What does this mean? It is not that e-mail etc. is the wrong way for our association to go, but in some areas of Europe it is not enough, it's rather unapproachable to

AEGEE - MEETING THESSALONIKI OCTOBER 7-9

BY
MICHALIS
TZORTZIS

most of our association's members there where some times not even simple mailed-info distribution functions in the way we know it or we would like it to. Where do I want to end up by referring to all this? To the fact that for the development and mainly the establishment of AEGEE in disadvantaged regions, CD-presence is very important, together with the frequently questioned by people who don't know Regional Development CD-

the Schengen-visa but still can't profit from its advantages (one single visa for the 9 E.U. Schengen countries) because it simply doesn't yet exist. The people of AEGEE-Thessaloniki were not prepared and informed about this new situation and some other consulate and embassy tricks, so despite their conscientious efforts participation was limited to representatives from 5 locals, 4 Antennae (Athina, Cluj, Sofia, Thessaloniki) and the new

Functions which should mainly be given to persons who come from the region. THE MEETING ITSELF The visa problems were once again the weak point of the meeting and this due to the recent implementation of stricter and more bureaucratic procedures because of the Schengen Agreement (do I spell it right?) which in a paradoxical way is yet not running but already causing all its trouble to someone who goes through the procedure for

baby contact of AEGEE-Pireas. The presence of Marius of the CD coming from Cluj was a happy incident and together we took over the coordination of the procedures of the event. Subjects discussed at the meeting which took place in a nice amphitheatrical conference hall at the Aristoteles University of Thessaloniki were the usual Aegee-Meeting stuff varying from the presentation of «History Structure and Philosophy of Aegee» till

«Putting into practice international cooperation» presented by various speakers, among them myself. One of the best parts of the event was the more than one hour long presentation of Internet and Aegee e-mail (thank you Theodoros Samaras-Thessaloniki) which led some people to look for e-mail accounts at their universities and elsewhere immediately the next days. A positive result of the meeting was the decision for the continuation of the initiative for AEGEE-Thessaloniki to dedicate a part of its local News Bulletin EUROCOSMOS to publishing and distributing to all Balkan locals. A Balkan News Bulletin included in EUROCOSMOS where Balkan Antennae can contribute, with articles and exchange information. Less positive was the discovery of a massive lack of coordination in the planning of international events in the region, something which hopefully will be avoided in the future. The meeting was attended by some 50 participants from the before mentioned Aegee-locals in a very positive and warm atmosphere. The number of participants however grew significantly at the hours of the social programme which composed of (what else?) pub crawling. One should not forget to mention that Thessaloniki (second large city in Greece with about 1 million of inhabitants) has more than 100.000 students living in it, giving it a very intensive night life in Europe. Well let's hope that we'll be able to participate in more AEGEE-Meetings in our region (Bucuresti has already been decided) to meet more of our neighbours again and to practice what the AEGEE idea is really all about, especially in the Balkans where this is badly needed.

1-16 July we took part in the Summer University in Toulouse.

The theme was «Euregion», the language was French. We met many students of law, economics, political sciences and many other fields, from twelve European countries. They will tell you the story about Europe.

Summer University is not only an educational event, the international meeting, the cultural education. It is also a big individual experience for each participant and organizer, of course. The «good-bye party» in Toulouse, the end of our two weeks together. French wine, French cheese, international smiles and ... tears. Perfect occasion to sum up what we have done. Everyone wants to talk.

*Why did I decide to spend my holidays this way? Why in Toulouse?

Bartek, Poland

-To meet people who are open for new things like I am, to hear about life in Finland, Ireland, Slovenia, Turks in Germany just from people who experienced it themselves. To explore France and French culture.

Natalie, Holland

-Try, just do it! I wanted to prove that I can live in an international group, I can make it. And it wasn't hard at all.

Eszter, Hungary

-I was seeking to learn French at school. It was so boring. I decided to try to start to like this language for the last time. Yes it was great, the lessons were interesting. I met so many nice French people, it gave me motivation to learn, because they don't speak English (laugh).

Susane, Denmark

-There was a very nice presentation in the guide. Interesting programme, but not only this. You could read in between the lines what kind of people organized it. And they didn't let us down.

-How did I arrange my visit? In

EUROPE IS POSSIBLE

some places like Helsinki, Rotterdam, Budapest, AEGEE is very well known. Many students, also members of ISIC, ELSA or other organisations were informed about S.U.. In other places you should either look for it very hard or have good luck. We should be better announced, I think.

*First meeting, first impression

Susane

-I was standing at the platform in Toulouse railway station, lost and confused. Suddenly they announced the message for me through the speakers. I understood nothing but my name spoken with the French accent...ha, ha, I started asking around random people what did they. Finally our organizers found me and picked me up.

Bernd, Germany

-We met all together and everyone just started to talk. In French, in English. It was clear that we are a group of open people. We talked like friends because we arrived here to become friends, you could feel it.

Bartek, Poland

-I arrived two days later. The hosts picked me up to our apartment. It was my first conversation with French native speakers, so don't ask me what they said! The only thing I understood was: they are friendly! That is the best way to communicate: smile!

Then I met our group. They were sitting around the table, around a big bottle of French wine. They looked like a group of old friends, so I got impression that I was late of two weeks, not two days... But

BY

**SOLANGE GRONDIN
BARTEK KLEMENS**

I caught up fast.

*We were living in the student hostels, some in the host families. But most of the time we wanted to spend time together. Our hosts, all participants from Ireland, Germany, Slovenia, Hungary, Finland, Denmark, Holland, Turkey, Poland, Spain, all struggling to speak French!

Reiko, Holland

-Everyone was so enthusiastic. Willing to learn, to explore. We enjoyed our conversations, our lessons, excursions. During the lectures about «Euregion», people wanted to ask questions, even if they couldn't understand the answers, ...ha,ha!

What kind of people came here? People who want to do something, to take a chance.

Selma, Germany

-I expected more divisions between nationalities. But there wasn't any!

Bartek, Poland

-After seven days, there was my birthday, one of those I will never forget. They made a party on a ship on the Canal du Midi with a picnic. It was great, it was fun, I felt among old friends. It was not important where we came from. After some days foreign language became comfortable. We were together, it was natural.

Tom, Ireland

-I felt like in Ireland. I mean like at home. There were no barriers because of nationalities.

*It looks like those twenty people got a great crosscultural experience in Toulouse. But there was also another group, those who arranged the S.U.

fous: AEGEE Toulouse. Let's start from the same question: why did you decide to arrange it?

Solange, President of AEGEE Toulouse

-It is first bog event arranged by us. We created our antenna and it was the first challenge. Two years ago I attended a S.U. in Prague with Eric and Heléne. Toulouse is in the south of Europe, very far from other antennas. It is hard to go to the conferences. Thanks to the S.U. our members got friends all over Europe. Now we feel closer to all the Northern towns, with blond boys, ha,ha!

-Sure it wasn't easy. We made it thanks to our enthusiasm for the idea of AEGEE. We got a good team to work together. It is such a creative work. When you start a job in a firm, you start from the low level. Here everyone was a manager, it was a challenge for everyone. I got to know people better through that work. Now we know that we can rely on each other. There was a time that we almost gave up because of financial problems. But the motivation was stronger...

*AEGEE Toulouse made a very interesting programme. We visited the aeroplane factory, monuments, castles, we spent a week-end at the seaside. Everywhere our hosts brought us in their cars. It was a funny voy: seven french little «voitures» full of international students. There was no distance between the participants and the organizers:

Jussi, Finland

-I met one person that changed my life, a member of AEGEE Toulouse. I found a wife... (why the hell, they're laughing?)

Sandra, organisation team

-Wife? He has two girlfriends now!

Jussi

-Yes, I got a big problem: should I stay here or should I go? I lost my summer job, I'm gonna stay

here!

*Well, but there were also lot of education. Let's go back to the lessons of hard French grammar, with Marie-Pierre:

Marie-Pierre

-So today we will learn the subjonctif imparfait...

*no way! At that point Solange entered in the classroom and gave a letter to Marie-Pierre. The latter read it and turned red. Silence. Tell me, but in French, what to do if someone tries to date you, but I don't want it?

*The hot discussion began. If someone tries to speak English, the teacher interrupted him. This sort of «grammar lessons» made us speak French! Doesn't matter that the stories of Marie-Pierre were fabricated. She knew how to make lessons so that we wouldn't sleep!

Carolyne, Holland

-The lessons were...»trés romantiques»!

Tom, Ireland

-I thought that French don't like strangers make mistakes in their language. I feared to speak, and now I don't.

Bartek

-I learned French by repeating tapes and books by myself. Before Toulouse I could say :»I speak, but I don't understand». Two weeks of conversation really changed it!

*By the end of the S.U. we had a great chance to see the celebration of July 14th in France. What a fireworks, like nowhere in Europe! The show was made on the Garonne river, between two old bridges, with music. Wow! French people know how to celebrate. Our visit in Toulouse marked many people, left unforgettable impressions. Some of us learned really new things...

Taeke, Holland

-I lost my bad stereotypes. People are nice, no matter where they come from.

Reiko, Holland

-The unification of Europe is not completed yet. Student's cards from Holland are not accepted in France as an I.D.

Jorgen, Denmark

-Dannish driving-licence neither.

Anita, Hungary

-French people are so friendly. For example, when you are lost in town, everyone wants to help you.

Natalie

-It bothers me that many people still don't accept homosexuality. But other impression, so many people who didn't delight me at the first side appeared to be great after a few days. I learned that I should always give a chance to everyone.

Selma

-All the nations in Europe are equal, and finally ready to cooperate.

Solange

-I enjoyed the diversity of cultures and personalities. That we can be together anyway. Next year I will go to a S.U. as a participant.

Bernd

-I would rather quit studying international law and open an international pub!

*About some experiences we had in Toulouse, we will not realize until going home and considering. It was so fast! But one thing is clear for all the participants:

Carolyne

-EUROPE IS POSSIBLE! For our generation there should be no borders. We need more meetings like this, so more people can be aware of that, how close the nations are. We decided to be active in AEGEE, to meet at the conferences. So we didn't say «Farewell» to each other.

"OFFICIAL" REPORT
ON THE SU'94
OF MADRID

BY
KRISTINA
ENDRENY

What clicks into your mind when you hear:Madrid?

First, it is the capital of Spain of course. And? What else? Let us see.

The Prado, the Palacio Real, the Rastro, the Puerta del Sol, the Retiro, the GranVía, parks, fountains, etc.

Well, for an average tourist these are the famous sights which he thinks of first.

BUT we, the 40AEGEE-members who are gathered for the SU'94 organized by AEGEE-Madrid did not live the life of an average tourist. Although looking at the pure facts the programmes were not much different than a normal language-course combined with a sightseeing.

Which are these facts? We studied the beauties of «CASTELLANO» in four groups, in four different levels, with four brilliant teachers, in four hours a day. We visited the Museum of Prado, the Thyssen-Bornesmiza Collection, the park of Retiro, the Ancient City, the Planetarium, we went to the cinema and to the «Corrida de toros» (bullfight)

We also had guided tour to Toledo, Segovia and La Granja. We spent a weekend in Alicante enjoying the huge waves, the sun and the night out in San Juan

(although our white skinned friends from the North did not adore the sun so much and used up liters of cream).

We had a wonderful time there visiting places, strolling around streets and taking pictures from everything that moved.

Above all these tremendous experiences- that is we defer from an average tourist- we were all together as a big group by the second day and all of us (fourty youngsters) lived and «survived» the fifteen days in Madrid.

I have to mention the fifteen nights in Madrid as well (fiesta, marcha, juerga, movida, call as you want to) it lasted fifteen days and we enjoyed every minute of it.

After these two weeks I am convinced a hundred percent that if I were to say MADRID, all of us would shout immediately: AEGEE SUMMER UNIVERSITY 1994

At the end of the story I would like to thank the board of AEGEE-Madrid and their active members for the great effort and care in which they organized this event. If you get the opportunity do not dare to miss Madrid.

Gracias por todo, Geni, Oscar, David, Ana, Miguel Angel, Virginia, Patricia, Monica.

NEWSLETTER, NO. 5, 27-10-1994

EDITORIAL

Welcome to the 5th newsletter of the 10th anniversary team. Unfortunately, we have big problems with our computer in our office. So, that's why this layout is not that pretty as the former ones. Melanie is out travelling these days, but she asked us to apologize for writing the titles of the Academies wrong in the last edition.

AEGEE-FORUMS

I hope that you all received the leaflet, by now. It was sent from Delft 17th October within the CD mail. Our next big project is the posters what we are going to do together. AEGEE-Aachen has made a framework to the poster which should represent all the AEGEE-FORUMS. The problem is now where are we going to print them out and how are we going to organize the finances. We

hope we can print it so it can be ready for the AGORA and afterwards send it out to the whole network.

anniversary Academy leaflet. It will hopefully be presented to the organisers at the AGORA in Montpellier. THEREFORE we would like to receive a presentation from each Academy as soon as possible, AND we would like to know the deadlines for applications, too.

RECEPTION

On April 27th, 1995 AEGEE-Europe will be celebrating its

anniversary with people who have been, or will be important to AEGEE. This formal reception is also meant for people who have been helpful to a group of antennae or to a region. If you know such a person please e-mail us or send us a letter. With your help we can complete the guest list. (This is a contribution from the reception committee

from AEGEE Delft and Rotterdam)

CONFERENCE

We are happy to announce that AEGEE-Budapest received the honour of organising the final conference of the 10th anniversary celebration. It will be a 4 day event which leaves plenty of time for serious matters as well as fun. As far as the serious matters are concerned, we will have lectures on the history of AEGEE, our

future prospects... The Academies will also present there result here. And as far as the fun part is concerned... Well AEGEE-Budapest has always known how to put the «cream on the cake»!! So we would like to invite everybody to come to this final event and celebrate our beloved organisation with us. (This is the contribution from AEGEE-Budapest)

NEWSBULLETIN

We would like to encourage all organisers of 10th anniversary events to send in presentation of their events to the Newsbulletin, and also contribute with articles about what the 10th anniversary is for AEGEE.

ONE OF THE MAIN TASKS OF THE NB IS TO BE OPEN FORUM OF DISCUSSION OF HOW AEGEE IS AND HOW IT SHOULD BE. HERE YOU HAVE THE CHANCE TO SHOW YOUR IDEAS.

DEAR AEGEE:

Recently I looked at the new listserver discussion and I was astonished by the crap going around. First an anonymous person who does not want to know what people have been doing so far [I only recall the cries for more information...]. I agree some of the programmes in the booklet are short but if we all knew in advance what we were going to do it would turn out bad with AEGEE. Secondly, somebody commenting without even reading the booklet [No further comments your honour...] If you are looking for something «nice» on your CV I have to advise you to go somewhere else, it is too much work and the return is almost zero, better get to the surer at your local chess club. [Anyway, their budget is probably larger...] Thanks to Philipp for explaining again why we need two CD-members in the field of education (in a STUDENTS organisation), this has been done numerous times before but it never hurts to repeat it again. The only sensible comment seen so far is «don't we need a secretary <some say even two>». Now there I can agree! Now you are talking

sense! But what is really an arrogant thing is the repeating general remark like «they are working only for their CV» without mentioning names. I completely agree with Kai that this would recreate the old image of a so called non-working CD. BULLSHIT. Coming back to the CV: YES, IT HELPS. But not by putting the line «member of the European Board of AEGEE» on your CV, or by getting to know «the right people in the right places». No my friends, it helps you by becoming used to working in an international organisation, by spending 24 hours in a row in the office, drinking hot coffee, scotch whiskey and Czech Becherovka with three of your colleagues, by knowing you can rely on your fellow CD-members, by getting close friends around Europe. In short, by working in a truly united European Environment. THIS is your curriculum vitae, NOT the bloody SHEET of PAPER!!!!!!!!!!!!!! Take this into consideration before crapping around.

Yours truly,

Pleun Rijkers
Former CD-member

OPEN LETTER TO BART HENDRIKS:

Dear Bart, since a longer time - already some months - I'm increasingly surprised as well as nerved by many of the messages you sent around via the AEGEE list, but in the recent time, it is getting worse. That's why I write this «letter». What is annoying me is the style and the spirit of your comments and moreover the negative (sometimes even aggressive) approach towards almost any topic! I'm amazed by your talent to understand things wrong and your ability to see only the bad sides of any kind of idea, question, discussion, activity or whatever. A destructive and hypercritical basic attitude is though the result. But do we need that??? Referring to Kai and many others: AEGEE needs CONSTRUCTIVE criticism (among others of course)! >From someone with your experience within AEGEE, I would expect more moderate, well reflected and tolerant statements. Who are you to tell everybody what is a «shame» or not??? We do not need any big moral referee, inquisitor or whatever for AEGEE, not on the E-mail list and especially not at the Agora! Nice to hear that your antenna will attend the Agora in Montpellier, some 100 other locals will be there as well What we don't need at all is that «DELFT» will be there, i.e. the attitude this term seems to represent for you. We already experienced this way of 'discussion culture' at the Agora in Utrecht - the most destructive AEGEE-Europe event during the last 2 1/2 years (Btw: read OEM 3, gossip about it). The

way and the quantity several people asked questions/gave comments made it impossible to tackle most of the really crucial challenges for our association! I'm curious to know what kind of ideas and visions you have about AEGEE, as it seems to me that you can only think in terms of «higher, larger, faster». (I daresay «What are your aims ...?» - What is your approach towards European INTEGRATION? So, dear Bart WHAT ABOUT: - opening your mind (a bit)? - some 'positive thinking'? - first informing, then thinking and only then - if required - criticising? - considering that nobody is perfect? - some self-criticism? - considering that the results of the Agora in form of (new ideas and projects like the LTP) are far more important than using the rare time for satisfying the personal feelings of aggression of a few people, having nasty discussions or showing Europe how 'great' AEGEE could be if it would only consist out of «DELFT» - that it is a shame to be the winner of the contest 'the formulator of the most nasty question' Please, don't take this as a personal offense. There're just some things which had to be said. I've nothing against you or AEGEE-Delft, you gave and give a very important and high ranking contribution to AEGEE as a whole. So, please don't show the ugly face of «DELFT» in Montpellier. with kindest regards

Let's Europe!

**ENSCHEDÉ
5-7 DEC.
ASIA A CHANING
WORLD**

We are glad to present you the programme of 'Asia, a changing world' after we have received a lot of requests for a detailed programme. Thanks for your patience! Introduction. The face of the Asian continent changed dramatically in the last half of the twentieth century. From a mainly agricultural society plagued by colonialism and World War II many countries evolved into leading industrial and information societies. South East Asian countries challenge Europe and Northern America in a global competition. This change brought Asia back in the centre of the world. The congress 'Asia, a changing world', organized by the Stichting AEGEE Enschede Congressen (SAEC), wants to explore the consequences of this global shift. We will take an in depth look into the causes of this spectacular change, the future of South and South East Asia and the relation of Europe with this part of the world. The primal focus of the congress will be on the past, present and especially future relationship between Europe and Asia. Sunday, 4 December Apart from the congress, there will be the opportunity to visit the city of Amsterdam, conducted

by AEGEE-Amsterdam. The tour starts at 12:00 a.m. at Amsterdam Central Station (CS). The application will be between 5:00 p.m. and 2:00 a.m. in a cafe in Enschede. AEGEE-members will be lodged by members of AEGEE-Enschede. During the congress application will be at university, in front of the congress hall.

Monday, 5 December

- 10:30 Reception & coffee
- 11:00 Opening of the congress
- 11:30 Introduction to 'History of Asia' The chairman will give an introduction to the topics discussed here.
- 11:45 Recent history An overview of important events will be given since World War II to become familiar with this continent.
- 12:30 Lunch
- 14:00 Relations with Europe An overview of the historical ties between European and Asian countries will be given
- 14:45 Introduction to 'Economic growth' The chairman will give an introduction to the case-studies.
- 15:00 Case study India India has the world's second largest population, resulting in large economic chances. You will hear what is happening and what could happen in the near future.

- 16:00 Break
- 16:30 Case study Korea Korea is one of those countries that has been growing fast in recent years. Korea is a typical example of a booming country.
- 17:30 Closure of lecture day one In the evening you can visit a real Asian cultural evening, where Asian music and dances will be showed.

Tuesday, 6 December

- 10:30 What can other parts of the world learn from Asia? Can especially Central and Eastern European learn from the occurrences in Asia in order to develop further.
- 11:15 Reaction of the EU The European Commission will give a presentation of the new policy, a presentation of how they will deal with Asia in the future.
- 12:00 Break
- 12:30 Introduction to 'Culture' The chairman will give an overview of this third theme.
- 13:15 Lunch
- 14:45 Workshop session I Participants can attend a workshop, to learn more about one particular subject concerning Asian culture. The subjects are: - Health care - Human rights, an Asian point of view - Doing business in Asia - Zen - Confucianism - Buddhism
- 15:30 Workshop session II Participants have the opportunity to visit another workshop.
- 16:15 Break
- 16:45 Presentation of conclusions of the workshop
- 17:30 Closure of lecture day two This evening an

Asian movie can be visited. Thereafter you can discover downtown Enschede by night.

Wednesday, 7 December

- 10:30 Movie on Environmental Problems in South and South East Asia. This movie will illustrate the impact of certain developments in Asia on the environment.
- 11:00 Break
- 11:30 Panel discussion 'Environment' Can Asia avoid the environmental mistakes made by western societies? Can it reach a form of sustainable development?
- 13:00 Lunch
- 14:30 Panel discussion 'Future of Asian-European relations' Is Asia a threat to Europe? What kind of policy should Europe follow concerning Asia? Will Europe focus more on Asia? What should private enterprises do?
- 16:00 Break
- 16:30 Final remarks and conclusions
- 17:00 Closure of the congress An informal reception will give the opportunity to talk over the congress after the official closure. The last but not the least part of this event will be the traditional, slightly modified 'EurAsian Night'.

AEGEE...

...stands for Association des Etats Generaux des Etudiants de l'Europe.

...has the aim to promote, by the student world, the European idea in the middle of the European youth.

...is a voluntary non-profit making student association.

...is a secular organization, not linked to any political party.

...does not consider any kind of national level of organization.

...was founded in Paris in 1985 and has now 15,000 members in 170 local groups, the «antennae» spread all over Europe.

THE PHILOSOPHY

The European youth combining their ideals with energetic prag-matism is able to create new initiatives widening existing structures. By critical and active confrontation with Europe as it is today, as well as it might be tomorrow, we help developing an open and tolerant European society.

AEGEE...

...aims to promote European cooperation, communication and integration among young people, especially students. These people work together in organizing European events.

...says that European integration is a question of attitude rather than form. Our generation is responsible for constructing a Europe that can be our common future.

...thinks that Europe is not a predetermined ideal reflecting our hopes and dreams, but a way forward which still has to be constructed.

...is sure that action speaks louder than words.

...offers a pragmatic approach to Europe. Through its activities, AEGEE becomes a tool for young Europeans to find out what Europe can or cannot offer them.

...wants to create broad and open-minded European citizens, people who are aware what Europe is, are able to understand the different cultures and mentalities.

CONFERENCES

As the European needs to meet for to overcome prejudices and to learn from others, easily accessible

GET TO KNOW
AEGEE. THIS IS YOUR
ASSOCIATION

conferences are the classical way of AEGEE to achieve this. During conferences people from all over Europe, students and professionals meet and discuss important topics to exchange ideas, opinions,

information and impressions. Recent conferences covered topics like Space, Xenophobia, The Future of European Cooperation, Japanese Companies in Europe, Men and Women.

EUROPEAN PROJECTS

Summer Universites - as languages are a key to another culture, a language course programme was a natural invention for AEGEE.

But not the language alone - a look into the culture and the understanding of the thoughts and problems of your host country will offer a deep look into the variety of the European culture.

Summer Universities are very different from other summer courses: they are organized by students for students on a voluntary base.

In 1993 AEGEE organized 68 courses in 72 different European cities, has taught 16 languages and 10 other subjects. More than 1,700 participants from 124 European university cities in 30 different countries made this project a real European one.

TEAM - The European Academic Manager is an annual job fair. TEAM offers companies, universities and students the possibility to communicate in a very practical and individual way.

CHAMP - Open to students from all faculties the Challenge in Management Perspectives offers the first and largest Europeanwide interdisciplinary case study competition.

MOOT COURT - this bilingual competition in European Community Law is organized together with the Moot Court Society and ELSA.

Students from all over Europe compete in front of the European Court of Justice to defend their case.

WORKING GROUPS

Several WGs, like East-West, Environment, Erasmus/Tempus or North-South, offer the students an opportunity to work with other Europeans on various actual subjects that are of importance for Europe.

MOBILITY

Congresses and academies are held to evaluate the mobility programmes and to search for improvements. The Erasmus and Tempus Working Groups take care of the foreign students in the universities and help them to settle in their host city.

HOW IS ORGANISED

COMITE DIRECTEUR

(BOARD OF DIRECTORS OF AEGEE-EUROPE, CD)

The Board of Directors of AEGEE-Europe is the executive and decision taking team of AEGEE-Europe. It directs and represents the association and coordinates its work. It runs its daily business and manages all internal and external affairs of AEGEE-Europe. The Board meets every two months in a different AEGEE-city.

A) The Board of Directors of AEGEE-Europe consists of 16 members, one of them is the president and a number of supplementary members replacing a board member in case of resignation. Members of the Board may only assume local responsibility, e.g. as member of the board of an AEGEE.local, in exceptional cases. The share of responsibilities is not given by law and can be discussed among the CD-members, specially not restricted only to

ordinary members. (Exceptions are the President, the

THE BOARD OF DIRECTORS OF AEGEE-EUROPE IS THE EXECUTIVE AND DECISION TAKING TEAM OF AEGEE-EUROPE.

Secretary General, the Treasurer). The Board of Directors works as a team for the well-being of the whole network.

B) The President of AEGEE-Europe prepares the Board meetings with the help of the Secretary Gene-

ral. He presides over the Board's meetings and is responsible for its good functioning and the execution of its decisions. The President represents the association in all legal affairs.

C) The Secretary General and his assistants are in charge of internal communication. They prepare reports on all AEGEE-Europe meetings.

D) The Treasurer and his assistant together with the President of AEGEE-Europe are

responsible for the accounts of the association. Major financial decisions are taken by the Board as a whole.

E) The vice-presidents are responsible for good coordination and contacts between our

antennae. They are also charged with establishing and keeping good external relations.

F) The ordinary Board members perform duties on the request of the President and the Board. All members are expected to help with any tasks if necessary.

G) The Board may create special commissions and European working groups for particular tasks (e.g. European sponsoring, European press service) and entrust capable people with the execution of important AEGEE-projects. They work under the direct control of the Board.

The CD is vested with the widest possible power to act in the name of the association and to be authorized to all actions or operations carried out in conformity with the aims of the association.

The History (II)

AEGEE was established in 1985 under the name EGEE: Etats Generaux des Etudiants de l'Europe in Paris

THE HISTORY OF
AEGEE
(1985 - 1993)

A wide opposition group was established the force for more inner democratization linked it self with the group of members, who wanted to establish AEGEE in all the European countries. They chose the name «Quo Vadis AEGEE» as their programme at the AGORA at Bonn 11/90 and with a 2/3 majority of all delegates (78 in favour, 30 for the old CD list) was the team of «Quo Vadis» elected.

In AEGEE a new spirit was established by its members, many of them could see a perspective in which they wanted to pay their own contribution. The new CD could find its way despite the risk that none of them was in the former one and the old CD hindered them, withheld the necessary information as well with the unauthorized spending of all the AEGEE money.

In the end the «Quo Vadis» CD managed their job with succes, their

inside idea «Students are building bridges across Europe» was accepted as the AEGEE motto at the AGORA in Budapest 11/91.

During that time AEGEE expanded towards the Central/ East European countries due to the specific engagement of the EWWG and the CD, which had for this task its own responsible.

In the first moment we could win many

enthusiastic people over there, but the difficulties started with the daily work to raise money for the organization of events in these countries and some financial support to make these members mobile to feel AEGEE real, to participate in our main events. There fore we started our activities with the TEMPUS programme via the TEMPUS Office in

Brussels. Of course we wanted to gain some financial aid on one hand but also to make these important programme happen, with those we shared the same vision the improvement of the mobility in Eastern Europe. The CD itself enforced this

development by setting up of AEGEE key events as the AGORA in Budapest 11/91 and the PM in Krakow 3/92. Since 1991 AEGEE could cover all the areas in Europe through its forced development in the EFTA countries - the PM in Turku 10/92, the ERASMUS congress in Geneve, the 2. ERASMUS congress and academy in Trondheim and Aalborg

enlarged itself to about 170 universit cities in Europe and needed to dedicate itself more to the improvement of its inner aims - quality is more than welcomed. The expansion of our network implied also a more democratic approach to the inside. That one was closely linked to the enormous change of our environment at that time. As the «Quo Vadis CD» already promised in its programme was AEGEE at its AGORA in Amsterdam 4/91 enabled to change its undemocratic CD election system. This was replaced by the single election system, which is still valid in our days. That's why every CD member is him or herself responsible. I dare say AEGEE faced an enormous change due to the actions of the «Quo Vadis CD» under the presidency of Georg von der Gablentz and his colleagues. But the wind of change came mostly out of all the members, we shared the common opinion that we could transform AEGEE together.

QUO VADIS

in 3/93 stand for our engagement.

Nowadays we can face a equal network in all the parts of Europe- in the East as in the West, North or South. This process was even perfectionated by having CD members and other representatives from all over Europe as well as by spreading our activities tiwards all these places. AEGEE

OPERATORS MANUAL

HELLO EVERYBODY

The work for the new edition of the OpM have started. Things have changed and new information have come up. To make the OpM as complete as possible I need help from all of you. Could you sent me your suggestions to what should be changed or added. The new edition will be finished so it can be handed out at the AGORA in Montpellier, I therefor need your ideas as soon as possible. I am looking forward to see a lot of good ideas, and I will try to fulfill as many as possible.

Yours sincerely

RECEPTION

DEAR AEGEE-ISTS

Because of our 10th anniversary there will be a formal reception in Brussels. This is an occasion to thank all the people who supported AEGEE during the past years. We are working on the guestlist, which has already a huge amount of people to be invited. But it might still be the case that we forget people. So, if you know people who have been (or still are) important to a group of AEGEE locals, NOT just to ONE local, please let us know. An example is Eppo Jansen, who does a lot for the Dutch locals.

Send it to:
AEGEE@CT.TUDELFT.NL
or to
AEGEE1@AD.CT.TUDELFT.NL
Thanks a lot for your cooperation, on behalf of the 10th anniversary reception committee

TEAM

I UNFORTUNATELY MUST INFORM all applicants for TEAM 94 that TEAM has been delayed to march 95!!! This decision has been taken by the main organizer and sponsor of the event Il Sole 24 Ore without previous consultation of AEGEE. Thus AEGEE Milano and the organizing team have been unable to influence this decision. We will keep you informed if the application forms will be taken into account for march 95 or if there are going to be new ones to be sent.

With european greetings,

Sabine Kampmeier,
TEAM-AEGEE Milan
